

Chapter 8 – Goals and Objectives

The purpose of this chapter is to establish the goals and objectives that will guide hazard mitigation efforts in Alcona. In developing community goals and objectives, it is important to analyze existing community characteristics such as social and economic conditions, services and facilities, environmental conditions, and existing land use. Furthermore, hazard analysis and vulnerability assessment must be considered. Preceding chapters of this hazard mitigation plan have documented the above items.

The Alcona County Local Emergency Planning Committee (LEPC) reviewed and updated goals and objectives at meetings on April 3, 2012 and September 17, 2012. The goals were incorporated into the draft plan and made available for review to communities and the public at meetings and on the web.
